

**Edgar Le Blond Henderson c.1930**  
(RAIA WA)

**Edgar Le Blond Henderson** (1890-1971) was born 7 July 1890 at Hawthorn, Melbourne. The middle name was derived from his French grandmother, Jeanne Louisa Caroline Le Blond. Edgar was born with an identical twin (Gilbert Dowling Henderson) to parents Edgar Jerome Henderson (1861-1928), architect, and Mary, née O'Neill. The family moved to Western Australia during 1896. Educated at the Christian Brothers College, Perth, Edgar junior worked for short periods in the State Government Survey Department and Public Works Department before commencing private practice with his father in 1914.

Prior to the First World War Edgar was co-winner in a Commonwealth Department of Defence competition for the design of an airplane, and in subsequent years delivered illustrated lectures in aerodynamics and on the theory of flight. It appears that he tried to join the Australian Army in 1916, but was rejected, possibly for medical reasons. Elected to the council of the Royal Institute of Architects of WA in 1923, serving for 38 years, he was made a Fellow of the RIAWA in 1925, acting as treasurer in 1926-1929 and president 1930-1931. A member of the Architects Board of WA for over 30 years, including 13 years as chairman, he was made a Life Fellow of the Royal Australian Institute of Architects in 1958. Often referred to as 'E Le B', his contributions and achievements were recognized with an OBE in 1960.

Henderson joined the Rottnest Island Board in 1933 following the sudden death of Joseph Allen, also an architect, and served for 38 years until ill-health caused

him to resign in June 1971. He was directly involved in, or actually designed all buildings during his period of tenure that were built on Rottnest, other than military buildings. He provided plans, specifications and administered works, often in an honorary capacity. Amongst many projects at Rottnest, Henderson designed the Vlamingh Memorial in 1935, oversaw many conversions in the Settlement for tourist accommodation, the construction of bungalows, the conversion of Government flats to the Rottnest Hotel and subsequent extensions, works to the shopping area, and the Board's offices.

Vlamingh Memorial on Rottnest Island (*The West Australian*, 9 November 1935, p.16)

Henderson is best-known for his succession of Inter-War Gothic and Inter-War Romanesque style Catholic churches, hospitals, convents and schools. His church designs include: 1924 Sisters of Mercy Chapel, Victoria Square, Perth; 1926 St John the Baptist Church, Dumbleyung; 1929 St Anne's Church, Pingelly; 1929 St Mary's Church, Wyalkatchem; 1929 St Michael the Archangel Church, Konnongorring; 1932 St Anthony's Church, Wanneroo; 1933 St Joseph's Church, Busselton; 1933 Sacred Heart Church, Beverley; 1933 Sacred Heart Church, Mundaring; 1934 St Joseph's Church, Subiaco; 1936 Holy Rosary Church, Nedlands; 1936 St Thomas the Apostle Church, Claremont; 1936-37 St Columba's Church, South Perth; 1939 St Joseph's Church, Albany - front and transept extensions; 1938-39 Chapel at Convent of the Good Shepherd (Church of St Michael the Archangel at Catholic Education Centre), Leederville; and in 1941 St Patrick's Church, Waroona.

St Thomas' Church, Claremont (*The West Australian*, 21 November 1936, p.4)

E Le B formed a partnership with Fremantle born architect-artist Allan Gamble (1907-2001) from 1937 to 1939. Gamble's fine sketching abilities were a great asset to the Henderson & Gamble practice, and he was later to exhibit art works as far away as New York. The pair produced many fine buildings together, including the initial buildings at Santa Maria College in Attadale and St Louis' College in Claremont, however the Second World War soon interrupted the local building industry. Henderson served as a Captain in the Royal Australian Engineers during the war, enlisting in April 1942, and was only able to resume practice shortly after being discharged in August 1945. Gamble worked for a period of time with Stephenson & Turner in Sydney, before taking a position as a lecturer in architecture with Sydney University in 1945.

Railway Hotel Norseman (*The West Australian*, 20 May 1939, p.8)

E Le B continued to practice successfully in WA for many years, in 1948 inviting George Pruett Thompson (1913-1997) into partnership as Henderson & Thompson. Thompson had been one of Henderson's articulated students from 1931, and later recalled that when he joined the firm there was only one project on the drawing boards – a group of three shops at Northam. With the practice's workload increasing again after the deprivations of the war, projects soon increased in scale, and in 1950 the partners commenced work on a St John of God Hospital at Kalgoorlie. Other post war commissions as Henderson & Thompson included chapels at St Thomas More College UWA 1954 and St John of God Hospital, Subiaco 1955. Demolished in 1994, the expensive memorial chapel at Subiaco was possibly the last Gothic style building designed in WA. The grand chapel exhibited an extremely high standard of detailing and excellent use of carefully selected building materials.

After Henderson's retirement, Thompson carried on the practice until 1983, part of a team designing buildings including fine chapels at Aquinas and Trinity Colleges, amongst many other projects.

Edgar Le Blond married Nellie Josephine Franklin and had five children: Margaret Mary (Margot) born in 1921 but died in 1954 at only 32 years of age, John Keith (Keith) born in 1923 at 14 Field Street Mount Lawley, Herbert Richard (Richard) born in 1924 (and worked for Henderson & Thompson), Patricia Mary born in 1927 at 14 Field Street Mount Lawley, and Edgar Brian (Brian) born in 1929 - at Brian's engagement in 1951 his parents were still living at 14 Field Street.

A prominent twentieth century practitioner whose life and extensive works would provide excellent material for a detailed study, Edgar Le Blond Henderson died at Floreat Park on 5 November 1971, aged 81 years.

Built at a cost of £100,000 the St John of God Memorial Chapel at Subiaco of 1955 was possibly the last Gothic style building in WA. It was demolished in 1994. (*The Architect WA*, December 1957, p.30; White, John and Pitt Morison, Margaret, Eds, *Western Towns and Buildings*, p.136)
